

I urge you to retain the current ownership-limiting rules now in place concerning the number of media outlets any entity may own. Public airwaves should serve the public, first, and any resulting profits should be a byproduct, not the priority. I watched this morning's discussion on Cspan and am now more sure of my views than before. We are already limited because of the "entertainment" competition involved in presenting news. Please do not allow more consolidation. Thank you, Marjorie Chapin
